Memorialization Options for Your Family

Traditional Interment

Traditional ground burial includes a casket, vault, and bronze memorial with a graveside service for family and friends. Specialty gardens, Serenity and Harmony Hill offer exclusive memorialization. Serenity features private mausoleums and benches amid lakeside views. Harmony Hill offers upright monuments atop the highest point of the memorial gardens.

Cremation Inurnment

Cremation continues to gain popularity as a preferred method of disposition. We offer a variety of memorial options, such as urns, niches, benches, columbaria, and pedestals, in addition to our cremation gardens. **Dulaney Valley Cremation Center** provides cremation services on our premises, providing families with the peace of mind knowing that their loved ones remain in our care.

Mausoleum Entombment

Mausoleums provide a dignified and secure resting place above ground. Our entombment options can accommodate caskets or urns housed in crypts or niches, respectively. Private family mausoleums offer entombment for individuals, companions, or families, with various configurations available. They are fully customizable and featured in the picturesque Serenity Garden.
